

Advanced Nutrients® invites you to “21st Century Farming”

Presented by Gary Murdoch Brown
CEO, Advanced Nutrients Pty Ltd

- Are you looking for ways to increase your crop yields?
- Do you want to increase crop quality?
- Do you want to increase the overall dollar return from your crops?

**Then perhaps your biggest asset, *your soil*,
needs a makeover !!**

Meet the experts who can help you improve your soil fertility and assist you to make adjustments and changes in your practices without the pain, changes that will ensure your farming business will grow and prosper into the 21st Century.

Learn about products that will add value to your farming operations and efficiencies. Products such as liquids and Black Urea®. Learn how by adding the right nutrient at the right time could be that crucial link that's been missing in your cropping program.... And there's much more.

Come and join us and we'll give you valuable information to set you on the path to increase the profits from your business. This is a free seminar, the only upfront investment is your time!

When: Thursday 11th February 2010
Start 11.00 am
